**We Care.
For You.**

Technology innovation is at our core at Shimadzu, and we use it to solve problems in healthcare. For over 100 years of history in X-ray, we have pursued our passion for technology to develop solutions to lower dose, secure patient safety, make workflow simpler and improve the patient and healthcare worker experience with meaningful innovation. At Shimadzu, we will continue to challenge ourselves to apply technology for a more meaningful experience for healthcare system.
